

S.O.S.J. Biographies

Welcome to our Biography Gallery!

In this section we are offering you a sample of the biographies of some of our members. This selection is in no way meant to diminish the importance of other S.O.S.J. members and these have been chosen only on the basis of availability.

World Seat regularly features biographies/CVs of our old and new members and we are thus giving you a list of these biographies, indicating Observer number, page, column and name so that anybody interested in reading them will find it easier to locate them. Besides this list we have also given you a typed out sample of such biographies assuring you that you will find them of great interest.

Some of the biographies on the S.O.S.J. Observer are rather concise while others are rather lengthy. This depended not only on the amount of space available in our official newsletter at the time of going to the print but also on the amount of information registered in our records. Most of these biographies are in English, it being the language in which these CVs were originally written. However, there are also some articles in French and in Italian.

World Seat, Malta, is also taking this opportunity to invite our members to send in a recent CV to World Seat so that we will be able to feature them in our S.O.S.J. Observer and eventually also in our web-site. Everybody is free to write in whichever language he desires. This will only add to the variety of our web-site.

We augur that you will find this page as interesting as it really is and that it will help you to better appreciate the value and standing of our members.
